□ SECTION 1

Mistake #1: Choosing Based on Price Instead of Risk

Burning Problem:

“Why is this courier so cheap?”

Because something is missing.

Low-cost providers often cut corners on:

- Insurance coverage
- Driver vetting
- Dispatch systems

Reliability standards

What This Leads To:

- Lost or damaged items
- No accountability

Delayed deliveries with no explanation

□ **Smart Move:**

Ask: “*What protections are in place if something goes wrong?*”
